AWS Reload 404 Error

Command to open file :

sudo nano /etc/nginx/sites-enabled/default

In that file we want to change the location as :

location / {

root /var/www/html;

index index.html;

try_files $uri /index.html;

}

Command to check the status :

sudo nginx -t

Output as

nginx: the configuration file /etc/nginx/nginx.conf syntax is ok

nginx: configuration file /etc/nginx/nginx.conf test is successful

then, run command :

sudo systemctl reload nginx

if any error check the status :

sudo systemctl status nginx

it also have the error

then Run :

sudo lsof -i :80
sudo systemctl stop apache2
sudo systemctl disable apache2

Then Start The Ngnix now using :

sudo systemctl start nginx
sudo systemctl status nginx

if there is no error it works correctly:
